

LEGAL NOTICE

STATE OF WASHINGTON DEPARTMENT OF COMMERCE

SOLE SOURCE ADVERTISEMENT

The Department of Commerce (COMMERCE) contemplates awarding a sole source contract to Washington Clean Technology Alliance (WCTA) for the approximate time period of January 14, 2010 to December 31, 2010. WCTA would provide staffing and contract administration support for the Clean Energy Leadership Council (CELC). This sole source is based on the fact that the enabling Legislation (Substitute Senate Bill 5921, 2009 Laws of the State of Washington) calls for a clean energy leadership initiative and the creation of the CELC. This initiative is a "collaboration between Washington's state agencies, clean energy technology companies, research institutions, national laboratory, and workforce development system." WCTA is a private non-profit entity established to provide the public-private collaboration to advance clean technologies in this area. Under this Contract, the WCTA would also continue to provide private funds to the clean energy leadership initiative. The WCTA Board of Directors includes representatives from state economic development, private green energy companies, research and law.

The contract will be issued on or about January 14, 2010.

Offerors contemplating the above requirements are required to submit capability statements detailing their ability to meet the state's requirements within five (5) business days of this announcement. In the absence of other qualified sources, it is the state's intent to make a sole source award of the contract. For further information contact:
